Description

- It would be helpful if there was a way to preview a couple pages from the resource without borrowing/reading the resource. If there was a way to see a couple pages from inside the resource so the user could better understand what the resource looked like inside or how it was written, it might lead to more resources being utilized.
- Refer to test case  [QA6T-50](#) Open and test plan  [QA6T-46](#) Open
