Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original Estimate:	Not Specified		

Test Preconditions:	<ul style="list-style-type: none">• Refer to Test Plan  QA6T-46 Open• Refer to test case  QA6T-50 Open• Site is available here• Login to user account
Test Script:	<ul style="list-style-type: none">• Note: You can also read books without an account, but they aren't saved or tracked to your profile. <ol style="list-style-type: none">1. Navigate to a resource that is currently available and click the Borrow Ebook button<ul style="list-style-type: none">○ This should load the book and take you to the reading page○ Notice that the reader takes you to the Internet Archive site, so you must use the menu to navigate back to the Open Library site once you are done reading2. With the book open, scroll back and forth through pages, zoom in and out, listen to the reader, change page configurations, etc. to ensure that all book functions work.3. Access the My Books menu and choose My Loans<ul style="list-style-type: none">○ Ensure that the resource you just checked out appears under the list of books you've checked out4. Return the book to the library from the My Loans page

	<ol style="list-style-type: none"> 5. Refresh the My Loans page and ensure that the book is no longer visible 6. Return to the homepage 7. Choose a book that isn't available and select Add to Waitlist 8. Access the My Loans page and ensure it shows up on the "Books You're Waiting For" section 9. Test the "Leave the waiting list?" functions <ul style="list-style-type: none"> o Ensure that when you leave the waitlist that the book is no longer visible on the My Loans page 10. Logout of site and reading test the process without being logged into a user account
Test Postconditions:	The user should be able to check out a book, read the book, and return the book.
Test Execution Notes:	<ul style="list-style-type: none"> • This test covered a user borrowing a resource, navigating the reading process via the browser, return a resource, and add themselves to the waitlist for items currently unavailable while logged in. A user should be able to read a resource without being logged in. • Due to the inconsistent nature of the site design, it was determined that the site was not a good candidate for resource borrowing/returning automation. • Refer to Improvement Recommendations: <ul style="list-style-type: none"> o Adding bookmarks  QA6T-60 Open o Previewing resources  QA6T-61 Open o Returning multiple items  QA6T-64 Open
Expected Result:	User should be able to borrow a resource, navigate the reading process via the browser, return a resource, and add themselves to a waitlist. A user should also be able to read a resource without being logged in.
Actual Result:	The user was able to borrow a resource, read the resource and navigate all reading functions, return a resource, and be added to waitlists while being logged into their account. Resources were also able to be read without logging into the site.
