Attachments:	 Disabled word on Book search page.JPG  Results from clicking on Disabled word or Print button.JPG
Steps to Reproduce:	<ol style="list-style-type: none"> 1. From homepage scroll to the bottom of the page and locate the Discovery menu 2. Select the Books link to navigate to the books search page <ul style="list-style-type: none"> o This should take you to the page: https://openlibrary.org/search?m=edit&mode=everything 3. Notice that the word Disabled is under the search box (see attached photo) 4. Click once or twice on the word Disabled <ul style="list-style-type: none"> o Observe that it seems to return search results that say No Results Found and under that are the words "Showing books with similar text to:" and a very long list of books that have the word "none" highlighted (See attached photo) 5. Click the Everything or Ebooks search type buttons, next to the search box <ul style="list-style-type: none"> o Notice that the list disappears 6. Click the Print search type button again <ul style="list-style-type: none"> o Notice that the list reappears
Expected Result:	The user should be able to use the books search page to search for a certain book by the different format options of Everything, Ebooks, or Print.

Actual Result:	Without any data entered in the search box, a search is performed when you click on the word Disabled or when you click the Print search type yielding a "No Results" message and a very long list of books with the word "none" highlighted.
