Affects Version/s:	None
Fix Version/s:	None

Type:	Test Execution	**Priority:**	Medium
Reporter:	[Tansey Sussex](#)	**Assignee:**	Unassigned
Resolution:	Done	**Votes:**	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original Estimate:	Not Specified		

Test Preconditions:	- Refer to Test Plan 📁[QA6T-46](#) Open - Site is available [here](#) - Refer to execution ❓[QA6T-52](#) Passed

Test Script:	1. From the site homepage click the Signup button
	2. Complete account details and cancel
	    o This will return you to the homepage
	3. Click the signup button again
	4. All fields should be required so test that it won't save an account with partial data entered
	5. Complete account details and click Sign Up button
	    o You should see a confirmation screen asking you to check for a confirmation email.
	6. Confirm the email from Internet Archive which will take you to the email verification successful page
	7. Click the "Log in to continue" link
	8. Test the log in page using incorrect email/password combos
	    o You should see corresponding error messages for the invalid data
	9. Click forgot your email and test the credential recovery options (this will be on the Internet Archive site)

	10. Return to Open Library site and log in using your credentials 11. Using your new credentials sign back into the site 12. Logout of the site
Test Postconditions:	The user should have been able to create a user account and sign in and out of the site.
Test Execution Notes:	• User account creation, password recovery, and login/logout functionality. • Refer to test case 📄QA6T-47 Open • Refer to test plan 📁QA6T-46 Open • Refer to automation login test
Expected Result:	A user should be able to easily create an account, perform password recovery, and login and logout of the account.
Actual Result:	The user was able to create an account, login and logout, and perform password recovery.
