Description

- It would be helpful if each time that a new search is performed, if the publication type would default to Everything. Presently, it seems to change among Everything, Ebooks, and Print and unless you are paying attention you might not realize that it isn't performing a full search. It would be less confusing for the user if it could default to Everything and the user could choose to select Ebooks or Print if they were searching for a particular type of resource. (See attached photo)
- Search page available at: https://openlibrary.org/search
- Refer to test case QA6T-55 Open and test plan QA6T-46 Open .
